

## TABLE OF CONTENTS

### March 2023 Features Release

Below is a high-level summary of the functionality deployed.

#### 1. Swift Batches

- Combines two ATLAS processes into one streamlined process.
  1. Origin Release: How you bring a barrel into the Magellan system
  2. Shipment Request: How you ship a barrel through the Magellan system
  3. Distributions: Shippers can assign barrels via shipments to themselves or other inventory owners.

#### 2. 1090 Requirements

- These three fields are **now required**.
  1. Fuel Type
  2. Oxygenate
  3. RVP

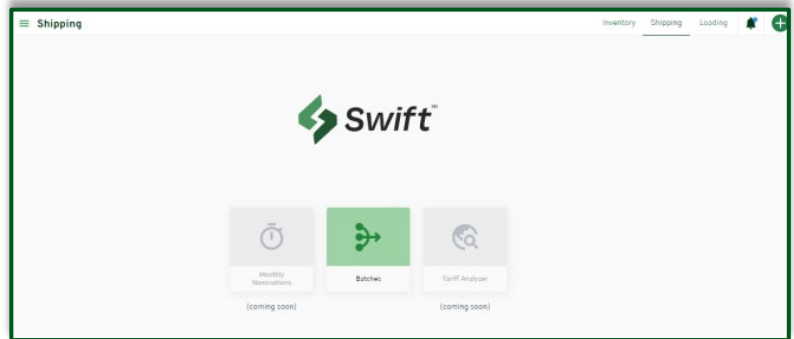

#### 3. Application Programming Interface (API)

#### 4. Reporting App: Additional Filters

#### 5. Troubleshooting FAQ

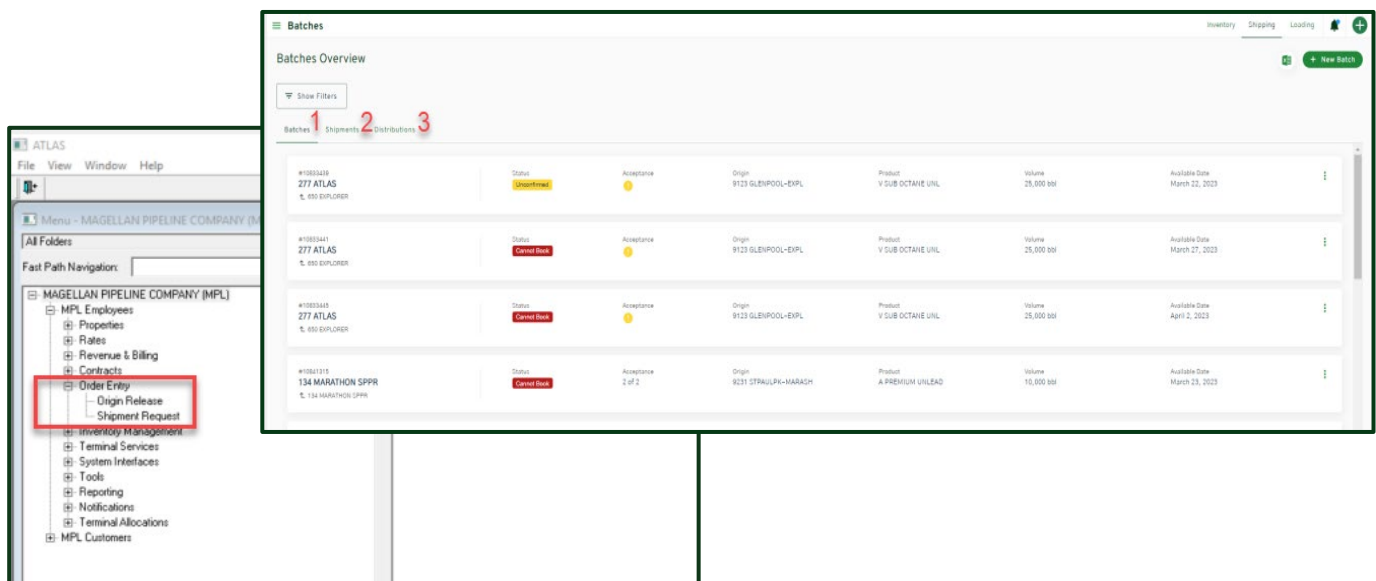

### Swift > Shipping > Batches

[Swift.magellanlp.com](http://Swift.magellanlp.com)

### User Enhancement Value

- Gives a full view of the lifecycle of a barrel within your Magellan system.
- Swift Batches combines 1) Origin Release, 2) Shipment Request, and 3) Distribution.
  - Consolidates all three into one place, one process.
  - Streamlined summary.
  - Review your batches on one consolidated screen.
- In one view, you can see and take action on batches, shipments, and distributions.

### User Enhancement Value

- In ATLAS, you must assign the volume to your Origin ID **and** match the shipments to your Origin Release.
- **NOW!** Create your shipment allocation – which calculates at the top of the screen as you enter the barrels – and the total calculates in real time!
- No more toggling to ensure the numbers match.
- No more doing the math yourself.
- Innovative notification to shippers that they must approve the shipment(s).
- You can still export to Excel.

### Steps

1. Create the batch within Swift.
2. Continue.

**Create New Batch**

**Batch Details**  
Please provide the following details for your batch.

Batch Owner: 209 MAGELLAN PIPELINE, LP

Origin: 8121 GP-S-KM

Product: V SUB OCTANE UNL

Fuel Type: Summer CBOB

Oxygenate: Ethanol 0%

BIP: 7.8

Available Date: 03/20/2023

Purchase Order: 123456

Optional: [No Title]

Comment: Batch 1

Optional:

Back Continue

### Steps, continued

#### 3. Designate Shipper allocation.

- A cumulative total automatically calculates upon saving a shipment.
- Add additional shipments if needed.

#### 3. Review your batches on the one consolidated screen. (red rectangle below)

#### 4. Submit.

The screenshot displays a web application interface for managing shipments. It is divided into two main sections: 'Shipment 1' and 'Shipment 2'.

**Shipment 1 Details:**

- Shipper: T10 TEST AGAIN1
- Booking Origin: 8121 GP-S-KM
- Location: 357 E HOUSTON MPL
- Volume: 25,000
- Comment: (empty)
- Optional: (empty)

**Shipment 2 Details:**

- Shipper: T11 TEST AGAIN2
- Booking Origin: 8121 GP-S-KM, 8121WF GP-S-KM-WF, 8122 GP-C-KM
- Comment: (empty)
- Optional: (empty)
- + Add Another Shipper

**Batch Details (highlighted with a red rectangle):**

- Batch Owner: 209 MAGELLAN PIPELINE, LP
- Origin: 8121 GP-S-KM
- Available Date: 03/20/2023
- Purchase Order: --
- Comment: --
- Product: V SUB OCTANE UNL
- Fuel Type: Summer CBOB
- Drygasene: Ethanol 0%
- RJP: 7.8
- Volume: 40,000 bbl

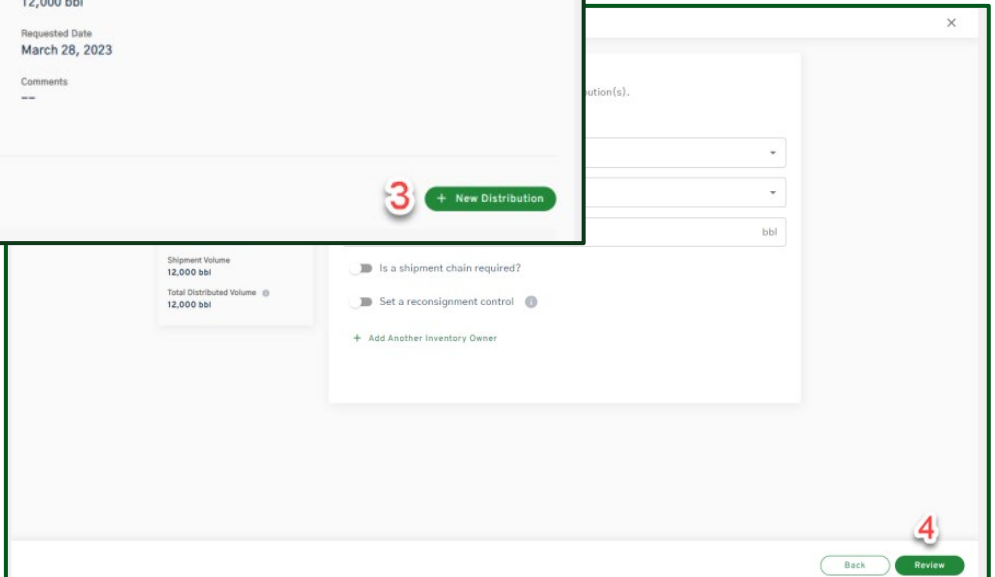

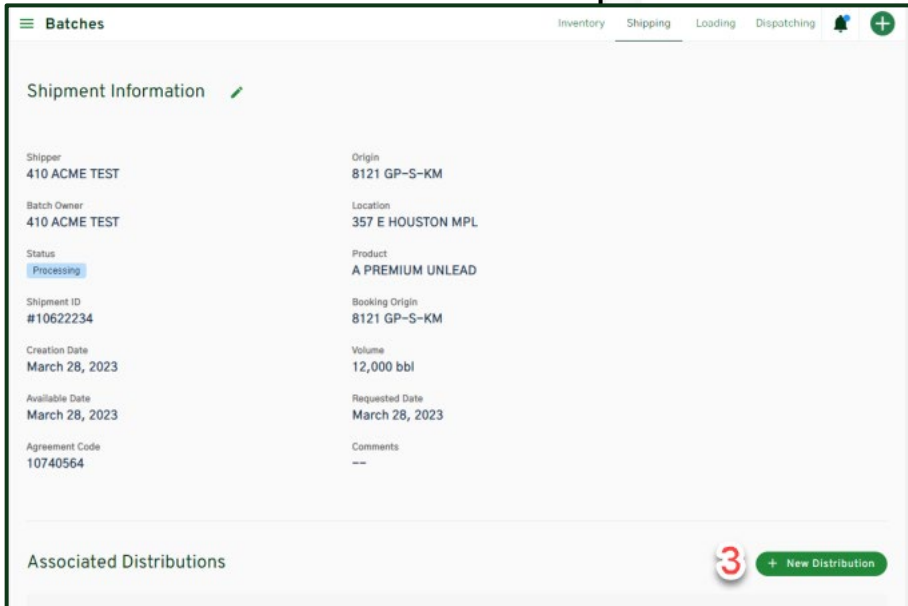

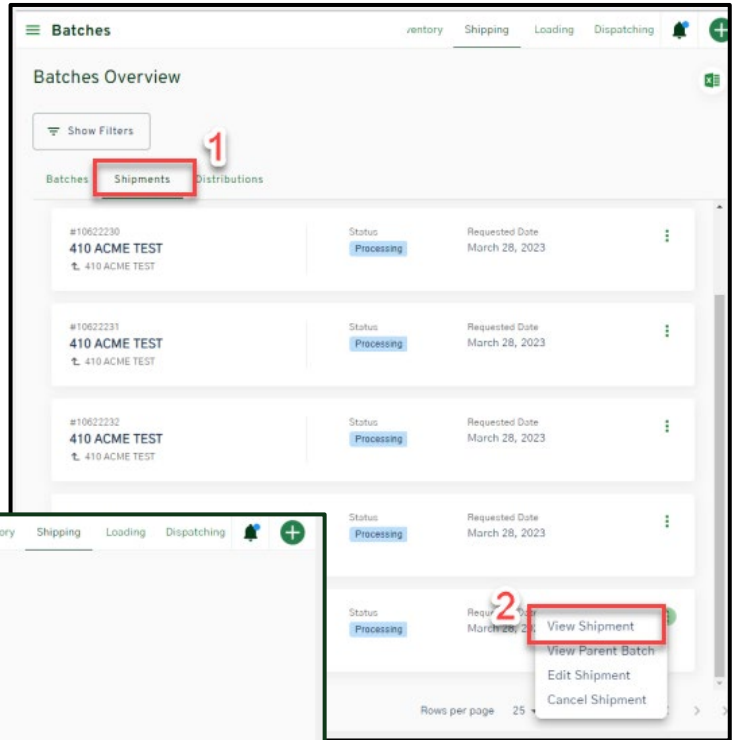

**Shipper Allocation Summary:**

- Shipment 1:** Shipper T10 TEST AGAIN1, Booking Origin 8121 GP-S-KM, Requested Date 03/20/2023, Volume 25,000 bbl. A red '1' is next to the volume.
- Shipment 2:** Shipper T11 TEST AGAIN2, Booking Origin 8121 GP-S-KM, Requested Date 03/20/2023, Volume 15,000 bbl. A red '2' is next to the volume.

At the bottom right, there are 'BACK' and 'Submit' buttons.

### Distributions Process

1. Shipments Tab
2. Click Ellipse > View Shipment
3. Click New Distribution
4. Review & Submit

These three fields are **required** in Swift to move forward with the Batches creation process.

1. Fuel Type
2. Oxygenate
3. RVP

- All certified fuels must be correctly designated.
- The designation must be exchanged each time a fuel changes custody or title.
- Please note that this requirement does not apply when creating batches for diesel.

**Create New Batch**

**Batch Details**  
Please provide the following details for your batch.

Batch Owner: 209 MAGELLAN PIPELINE, LP

Origin: 8121 GP-S-KM

Product: V SUB OCTANE UNL

Fuel Type: Summer CBOB **1**

Oxygenate: Ethanol 0% **2**

RVP: 7.8 **3**

Available Date: 03/20/2023

Purchase Order: 123456

Optional

Comment: Batch 1

Optional

Back Continue

Any questions regarding the 1090 requirements:

1. Reference 40 CFR 1090.105 and 40 CFR 1090.1010
2. Contact your regulatory compliance point of contact at your company

APIs (Application Programming Interface) **Available in Swift+ only.**

## User Enhancement Value

- Advance your integration with ATLAS and Swift, creating a more real-time sync between systems.
- These endpoints and data documentation are now available on our Magellan Developer Portal: <https://developers.magellanlp.com/>
  1. Not able to access? Register and create a new account.
  2. Magellan will reach out to provide unique access credentials.
  3. Log in and review the Mock API data parameters.

# Magellan Reporting App

## Additional Filter Enhancements

### Reporting App Release

Magellan released two new filtering options in our reporting App. See the below screenshot.

### New Filters Available

1. By Invoice
2. By Bill of Lading (BOL)

Find the Reporting App within your Magellan Portal by [clicking here](#). Select Reporting App.

### By Invoice

- When searching, you are required to enter the “COMPANY ID” and then a dash before the “INVOICE ID”
  - Format: COMPANY ID-INVOICE ID

### By BOL

- The BOL search is only for rack loadings out of the Magellan terminal.

The screenshot displays the Magellan Reporting App interface. At the top, it shows the following information: REPORT ID: CRB210R1, COMPANY ID: MCP, and INVOICE ID: 123456. Below this is the Magellan logo (MAGELLAN MIDSTREAM PARTNERS, L.P.) with a "Return to Portal Home" link. There are two green buttons labeled "home" and "investors". A "Reporting" section is visible, featuring a truck and a storage tank. The "Reports" section contains a filter form with the following fields and buttons:

- Filter by report date: From [ ] Until [ ] Filter Clear
- Filter by Invoice: MCP-123456 Filter Clear
- Filter by BOL: [ ] Filter Clear

## What is Swift vs. Swift+? Will it cost to use?

- Swift is a digital transformation replacement of ATLAS and it's free! If you use any of the system services they still have a cost, but the use of Swift is free.
- Swift+ is an upgrade within Swift, and pricing is unique to you! It's a tiered approach based on a per-bbl annual threshold. It even has a tier that includes BOLs at no additional fee.

## Swift Access

- First-time Company Enrollment: You must be an Administrator to go through the enrollment process. This admin will set each new user.
  - You need to check with your system administrator to see if you've been set up as a user (either read or manage role).
1. Once created, visit <https://swift.magellanlp.com> to log in.
  2. Use your ATLAS credentials to log in.
  3. Select Tile to Get Started.

## Swift Enrollment

- Use your ATLAS credentials to log in.
- If you cannot remember your password or three security questions, call the Magellan help desk: 918.574.7667

## How to Enroll in Swift+

1. Hamburger navigation (top left) > **Settings** Cog Icon > **Swift+** icon >
2. **New Swift+ Enrollment** button
  1. You are enrolled if you see current usage statistics and data for your current plan.
  2. You are not enrolled if you see both *Enroll in Swift+* and the *Get Started* button
3. Complete setup. You will receive a notification upon enrollment.

## **If I enroll in Swift+, what fees are covered?**

1. Product Transfer Order (PTO)
2. Supplier Authorization
3. Reconsignment Control
4. Shipment Distribution
5. Two-Party Exchange
6. BOLs (Tier 5 only)

## **When I click Confirm to Enroll on the last step within Swift+ enrollment, did I just execute a contract?**

- Yes. When you confirm the last step, a new system contract is auto-generated and your plan will begin on the first day of the following month of enrollment.

## **What else is included in Swift+ Only?**

1. APIs - Automated Data Transfer eliminating manual entry
2. Rack Wait Times - view of projected wait load time at Magellan's various racks, as well as historical information
3. Extended Loading - the ability to overdraw inventory at a location, up to 2,000 barrels, so long as you have the inventory in the system
4. Swift+ User Enrollment Enhancement making it easier

## **I want to learn more about APIs. How?**

1. Visit <https://developers.magellanlp.com>
2. Register a new API account.
3. Work with Magellan IT to receive unique credentials to gain access.
