

TABLE OF CONTENTS

November 2022 Feature Release

Below is a high-level summary of the functionality released. Click on the functionality below to be directed to each page and see the user enhancement values and screenshots.

1. Reconsignments
 - Self-Serving ability to move barrels from one location to another.
2. Application Programming Interface (API)
 - Deployed 12 endpoints available for Swift+ Customers
3. Troubleshooting FAQ

User Enhancement Value

- Navigation screen is a two-step process to create reconsignments
- Easier navigation and selection capabilities
- Real-Time view of what type and how many barrels are available to move from one or many destinations to one source location. Yes, you can select multiple destinations.

The screenshot shows the 'Reconsignments Overview' page in the Swift application. It features a table with columns for ID, Status, Product, Volume, Affiliate, Transfer Date, and Booked Date. The table contains five rows of data. The first row is marked as 'Canceled', while the others are 'Booked'. A '+ New Reconsignment' button is visible in the top right corner of the table area.

ID	Status	Product	Volume	Affiliate	Transfer Date	Booked Date
#6257113 223 TOPEKA t. 202 IOWA CITY	Canceled	A PREMIUM UNLEAD	9 BBL	410 ACME TEST	October 14, 2022	-

Your Reconsignment Was Successfully Submitted!

1 new recurring reconsignment(s) have been successfully created for 410 ACME TEST

APIs (Application Programming Interface)
Available in Swift+ only.

User Enhancement Value

- 25 API endpoints available to start consuming today.
- Advance your integration with ATLAS and Swift, creating a more real-time sync between systems.
- These endpoints and data documentation are now available on our Magellan Developer Portal: <https://developers.magellanlp.com/>
 1. Not able to access? Register and create a new account.
 2. Magellan will reach out to provide unique access credentials.
 - You can log in and view the Mock API data parameters.
 - You can view API release notes.

Endpoints Released November 2022

API Library	Endpoint Name
Inventory	<ol style="list-style-type: none">1. GetCurrentInventorySummary 2.02. GetCurrentInventoryDetails
Shipping	<ol style="list-style-type: none">1. GetDistributions2. GetDistributionDetails3. GetOriginReleases 2.04. GetOriginReleaseDetails 2.05. GetShipmentRequests 2.06. GetShipmentRequestDetails 2.07. GetNominations8. GetNominationDetails9. GetReconsignments10. GetReconsignmentDetails

Other API libraries include

1. Loading
2. Locations

Want to enroll in Swift+?

Email CommercialTechnology@magellanlp.com

What is Swift vs. Swift+? Will it cost to use?

- Swift is a digital transformation replacement of ATLAS and it's free! If you use any of the system services they still have a cost, but the use of Swift is free.
- Swift+ is an upgrade within Swift, and pricing is unique to you! It's a tiered approach based on a per-bbl annual threshold. It even has a tier that includes BOLs at no additional fee.

Swift Access

- First-time Company Enrollment: You must be an Administrator to go through the enrollment process. This admin will set each new user.
- You need to check with your system administrator to see if you've been set up as a user (either read or manage role)
 1. Once created, visit <https://swift.magellanlp.com> to log in
 2. Use your Atlas credentials to log in
 3. Select Tile to Get Started

Swift Enrollment

- Use your Atlas credentials to log in
- If you cannot remember your password or three security questions, call the Magellan help desk: 918.574.7667

How to Enroll in Swift+

1. Hamburger navigation (top left) > **Settings** Cog Icon > **Swift+** icon >
2. **New Swift+ Enrollment** button
 1. You are enrolled if you see current usage statistics and data for your current plan.
 2. You are not enrolled if you see both *Enroll in Swift+* and the *Get Started* button
3. Complete setup. You will receive a notification upon enrollment.

If I enroll in Swift+, what fees are covered?

1. Product Transfer Order (PTO)
2. Supplier Authorization
3. Reconsignment Control
4. Shipment Distribution
5. Two-Party Exchange
6. BOLs (Tier 5 only)

When I click Confirm to Enroll on the last step within Swift+ enrollment, did I just execute a contract?

- Yes. When you confirm the last step, a new system contract is auto-generated and your plan will begin on the first day of the following month of enrollment.

What else is included in Swift+ Only?

1. APIs - Automated Data Transfer eliminating manual entry
2. Rack Wait Times - view of projected wait load time at Magellan's various racks, as well as historical information
3. Extended Loading - the ability to overdraw inventory at a location, up to 2,000 barrels, so long as you have the inventory in the system.
4. Swift+ User Enrollment Enhancement making it easier

I want to learn more about APIs. How?

1. Visit <https://developers.magellanlp.com>
2. Register a new API account.
3. Work with Magellan IT to receive unique credentials to gain access.
