What is Swift vs. Swift+? Will it cost to use?

• Swift is a digital transformation replacement of ATLAS and it's free! If you use any of the system services they still have a cost, but the use of Swift is free.

• Swift+ is an upgrade within Swift, and pricing is unique to you! It's a tiered approach based on a per-bbl annual threshold. It even has a tier that includes BOLs at no additional fee.

Swift Access

• First-time Company Enrollment: You must be an Administrator to go through the enrollment process. This admin will set each new user.

• You need to check with your system administrator to see if you've been set up as a user (either read or manage role)

1. Once created, visit https://swift.magellanlp.com to log in

2. Use your Atlas credentials to log in

3. Select Tile to Get Started

Swift Enrollment

• Use your Atlas credentials to log in

• If you cannot remember your password or three security questions, call the Magellan help desk: 918.574.7667
